

Dynamics Mobile

We Make Everything Easier

## VAN-SALES

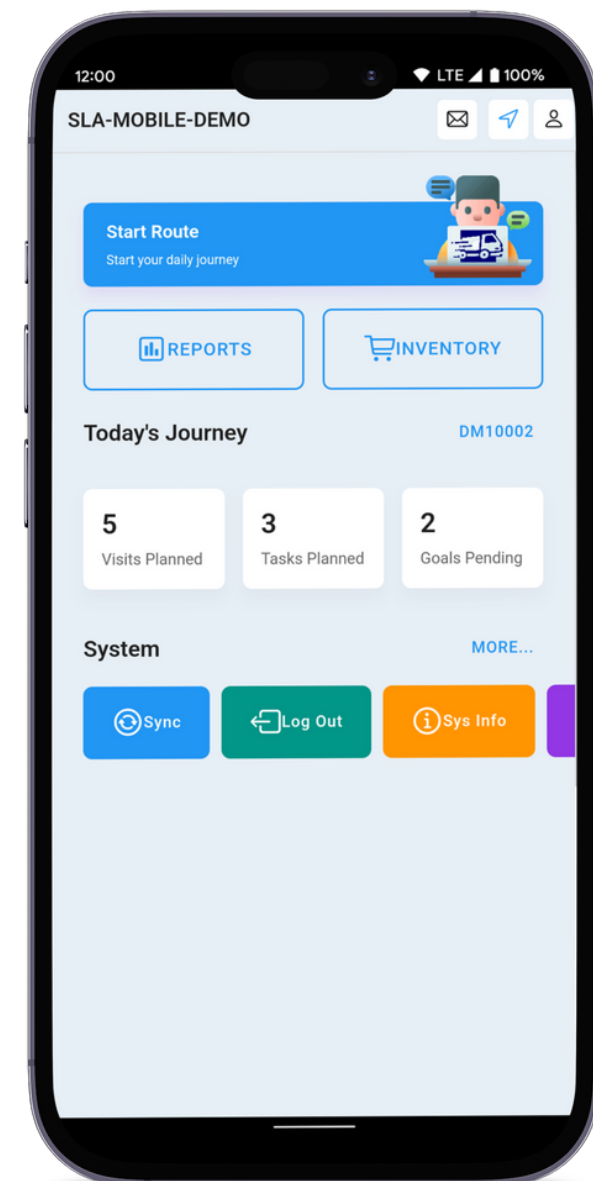

### SOLUTION

Dynamics Mobile Van-Sales is a customizable solution that covers processes such as: Direct Store Delivery (DSD), Pre-Sales, Merchandising, and Collections. Supervisors may schedule routes, create campaigns and monitor field activities in real time. Meanwhile agents can carry out planned delivery routes, visit customers and issue invoices directly from their mobile phones or tablets without the need of internet connection.

# FEATURES

- Geo-map integration & tracking
- Route optimization
- Create orders, issue invoices, and submit returns
- Real offline mode & remote device management
- Sales & delivery route management
- Daily EOD sales reports
- Signature and image capturing
- Bluetooth printing capabilities
- Multilingual support
